SUBJECT: MEETING SUMMARY – DRAFT REGULATORY BASIS FOR RULEMAKING

Dear Mr. Rander:

This letter refers to two meetings you requested at the U.S. Nuclear Regulatory Commission (NRC), Headquarters office in Rockville, Maryland on October 7, 2014, during which you discussed (1) an alternate proposal for management of fatigue at Category I fuel cycle facilities compared to the draft regulatory basis for proposed rulemaking related to Part 26 as well as (2) comments on the draft regulatory basis for proposed rulemaking related to Part 73.

Because the handouts were security-related, they are not attached to this summary, and are not available to the public.

The list of meeting attendees is enclosed.

In accordance with Title 10 of the *Code of Federal Regulations* 2.390 of the NRC's "Agency Rules of Practice and Procedures," a copy of this letter, and its Enclosure, will be available electronically for public inspection in the NRC Public Document Room, or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System.
