Re:

Amendment to NRC License No. 21-26740-01

Genesys Regional Medical Center

Please amend our current NRC license to reflect the following changes:

Please remove depleted uranium (NRC license subpart 6.E.) and Gd-153 (subpart 6.F.) from our NRC license. We have enclosed the confirmation letters from the companies to which all was returned.

If you have any questions or require additional information, please contact our physics consultant, Laura M. Luna, Medical Physics Consultants at 734-662-3197 or Iluna@mpcphysics.com.

Sincerely,

Joy M. Finkenbiner

Vice President

September 16, 2014

To Whom It May Concern:

This letter is written to notify you of the status of the Varian 4/100 that was removed from Genesys Regional Medical Center by Acceletronics Services, Inc. The machine was rigged out of your facility the beginning of April 2002 and moved to our Michigan warehouse located at 13614 Woodbury Road, Haslett, MI 48840, where they were stripped for parts.

The DPU is under our control under license number SUB01589. I have included a copy of your license for your records.

If further information is needed, please feel free to contact me through the numbers listed below.

My Best Regards,

Mike Summers
President, Acceletronics Services, Inc.
