Control No. 584972
584974

Timothy Daly
Radiation Safety Officer
Ahlstrom Nonwovens LLC
2 Elm Street
Windsor Locks, CT 06096

SUBJECT: AHLSTROM NONWOVENS LLC AND SUOMINEM CORPORATION, REQUEST FOR ADDITIONAL INFORMATION CONCERNING TERMINATION OF LICENSE, CONTROL NO. 584972 AND 584974

Dear Mr. Daly:

This is in reference to your letter dated September 18, 2014, requesting to terminate Nuclear Regulatory Commission License Nos. 06-14001-01 and 06-31456-01. In order to continue our review, we need the following additional information:

1. Your termination request indicated that ABB, Inc. would redistribute your gauges as generally licensed devices. This includes changing the labels on each of your devices to general license labels. After the devices have been redistributed and the labels have been changed, please notify or coordinate with ABB to notify the GLTS Coordinator of the additional Generally Licensed Devices at:

Director, Office of Nuclear Materials Safety and Safeguards
ATTN: Document Control Desk/GLTS
U.S. Nuclear Regulatory Commission
Washington D.C. 20555-0001

2. Submit a letter signed by senior managers of both Ahlstrom Nonwovens LLC and Suominen Corporation to the NRC, Region I office that the transfer has been completed and that they would like to proceed with the license terminations. Please include an inventory of all devices. Please reply to my attention at the Region I Office and refer to Mail Control Nos. 584972 and 584974.

We will continue our review upon receipt of this information. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-6945. If we do not receive a reply from you within 30 calendar days from the date of this letter, we will assume that you do not wish to pursue your application. However, we could terminate the licenses at a later date once the appropriate documentation was submitted.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's expectations for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Sincerely,

Original signed by Michael Reichard
