MEMORANDUM TO: Marissa Bailey, Director
Division of Fuel Cycle Safety, Safeguards,
and Environmental Review
Office of Nuclear Material Safety
and Safeguards

FROM: Lydia Chang, Chief **/RA/**
Environmental Review Branch
Division of Fuel Cycle Safety, Safeguards,
and Environmental Review
Office of Nuclear Material Safety
and Safeguards

SUBJECT: APPROVAL FOR PUBLICATION OF THE RE-ISSUED FINAL
ENVIRONMENTAL ASSESSMENT FOR THE PROPOSED LICENSE
RENEWAL OF THE CALVERT CLIFFS INDEPENDENT SPENT FUEL
STORAGE INSTALLATION IN CALVERT COUNTY, MARYLAND

The U.S. Nuclear Regulatory Commission (NRC) staff has completed preparation of the re-issued final environmental assessment (EA) and finding of no significant impact (FONSI) for the proposed license renewal of the Calvert Cliffs Independent Spent Fuel Storage Installation (ISFSI) in Calvert County, Maryland. The re-issued EA includes the NRC staff's consideration of the impacts of continued storage of spent nuclear fuel (as documented in NUREG-2157, "Generic Environmental Impact Statement for Continued Storage of Spent Fuel") and an update to the cumulative impacts assessment to address new information about reasonably foreseeable future actions in the vicinity of or associated with the ISFSI site.

The Office of the General Counsel has reviewed the re-issued final EA and FONSI and has no legal objection to the publication of the document.
