Subject: RE: Nuclear Regulatory Commission...

Chairwoman Macfarlane,

We American taxpayers, and ratepayers, pay for 90% of The NRC's budget, and we have a perfect right to speak out when necessary.

We now know, what we long suspected, that the NRC is a rogue agency, captured by the industry it is supposed to regulate. Confirmation of this corrupt reality has come from none other than the U.S. Senate Majority Leader, Harry Reid.

Please do the duty for which you have been elected, to truly protect people and the environment against nuclear power's radiological hazards, rather than "serve" as "lapdogs" to the nuclear power industry.

Please shut down these broken nuclear plants and stop trying to dump their waste here and around the world.

If you drag your feet on this issue, or continue to shill for the industry, our nation and the world will only suffer and your name will only go down in infamy.
