SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE
24-24518-01, ST. LOUIS CONNECTCARE

Dear Mr. Albin:

In the proposed draft "Motion of Trustee to seek Termination of the License...." with attached letters dated December 26, 2013, the U.S. Nuclear Regulatory Commission was contacted and it was requested that the NRC radioactive material license 24-24518-01, St. Louis ConnectCare be terminated. The NRC staff has reviewed the final status surveys and the NRC confirmatory close-out survey inspection results (Memorandum to Files dated October 16, 2014, ML14281A613) and based on its review, the staff has concluded that all licensable radioactive material has been removed from the facility. Based on these conclusions no further remediation or actions with respect to NRC regulated material is required. The facility is suitable for unrestricted use and NRC license number 24-24518-01, St. Louis ConnectCare is hereby terminated.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

If you have any questions, please contact me at (630) 829-9887

Sincerely,

A handwritten signature in black ink that reads "William P. Reichhold".

William P. Reichhold
