Discussion:

I asked CAPT Noska if the source that they wanted added was Model GF Type D. He looked it up and said that it was. I then said that I would need to add it to the license as that since it was in the SS&D. He said that he would just need to be licensed for 1 millicurie then as it was unknown the models of future sources. I asked about the use specified in the amendment about R&D. The letter said it was for checking instruments and not R&D. He said that he didn't realize that checking instruments was an authorized use and so to add the source for that purpose.

Action Required: Amend license as above.
