Materials License No. SNM-2514, Docket No. 72-27
Humboldt Bay Independent Spent Fuel Storage Installation
Report of Changes to the Training and Qualification Plan (Guard Training Plan) (Revision 0)

Dear Commissioners and Staff:

Pursuant to 10 CFR 72.4, 10 CFR 72.44(e) as referenced by License No. SNM-2514, Condition 12, and 10 CFR 72.186(b), enclosed is a report of changes to the Humboldt Bay (HB) Independent Spent Fuel Storage Installation (ISFSI) Training and Qualification (T&Q) Plan (Guard Training Plan (GTP)) incorporated in Revision 0, effective September 19, 2014. The changes did not decrease the effectiveness of the T&Q Plan. The changes meet the applicable ISFSI training requirements for security personnel as contained in the physical protection plan required by License No. SNM-2514, Condition 12, as modified by the NRC Order dated November 22, 2006, containing the Interim Compensatory Measures for Physical Security and Additional Security Measures for Access Authorization.

As described in the enclosed report of changes, the T&Q Plan, an official use only (OUO) plan, was previously known as the GTP and was a safeguards (SGI) plan. As a result of the change from GTP to T&Q Plan, the T&Q Plan becomes Revision 0.

PG&E makes no regulatory commitments (as defined by NEI 99-04) in this letter.

Should you require further information, please contact Mr. Steven McDonald, Manager, ISFSI Support at (707) 441-2647.

Sincerely,

Loren D. Sharp
