Addition Information Request for New License

SUMMARY

During our review of your application for a new license dated August 12, 2014, it appeared that your application had not been prepared in accordance with the guidance in NUREG 1556, Vol. 9, Rev. 2, "Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Portable Gauge Licenses, dated January 2008." This has resulted in an application that references outdated material.

Please resubmit the application in its entirety using NUREG 1556, Vol. 9, Rev. 2, Appendix C, "License Application Checklists." A link to the NUREG 1556, Vol. 9, Rev. 2 is included below.

In addition, please confirm in writing if you will be using PET radionuclides. If you will be using PET materials, please provide shielding calculations for areas where the materials will be used and stored.
