September 30, 2014

David P. Nolan, P.E.
Assistant Vice President/Associate
SCI Engineering, Inc.
130 Point West Boulevard
St. Charles, Missouri 63301

Dear Mr. Nolan:

We have completed our review of the request dated June 25, 2014, requesting that NRC Materials License No. 24-20039-01 be amended to name you as the Radiation Safety Officer (RSO) and that you be authorized to conduct the in-house training program for new gauge users. As you were made aware by telephone on September 26, 2014, at this time, we are unable to approve that part of your request that you be authorized to conduct the in-house training program for new gauge users. As was discussed with you during our telephone conversation, additional training and experience is needed, based on NRC guidance on the training and experience necessary to be considered qualified to conduct training in portable gauge use as a course instructor is provided in Appendix D of NUREG-1556, Volume 1, Revision 1 (<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v1/r1/>). At the conclusion of our conversation, you confirmed your understanding of this point, and stated that you would provide a signed and dated letter withdrawing that part of your request, and would confirm your understanding that before using licensed materials, authorized users will have successfully completed the in-house training as conducted by the approved current instructor, William J. Guerdan, or one of the training courses described in user training criteria section (Section 8.8) in NUREG-1556, Vol. 1., Rev. 1 (e.g., manufacturer's training). At this time, we have not yet received your letter modifying your initial request as discussed.

We request that you provide the requested letter by October 1, 2014. The letter, which can be submitted via facsimile (630-829-9782) or emailed to me as an attached scanned document (.pdf format), must be signed and dated, and should refer to Control No. 584239. Thank you for you for your cooperation in this matter.

In accordance with Title 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in cursive script that reads "Dennis P. O'Dowd".
