OFFICE OF ENFORCEMENT  
NOTIFICATION OF SIGNIFICANT REGULATORY ACTION

Licensees: Waste Control Specialists LLC (EA-14-104)  
Docket No. 70-7005

Subject: ISSUANCE OF ORDER SUPERSEDING A PREVIOUS ISSUED ORDER

The U.S. Nuclear Regulatory Commission (NRC) is issuing an Order on or about November 24, 2014, superseding a previously issued Order to Waste Control Specialists LLC (WCS) on October 20, 2009 (2009 Order). The previous Order exempted WCS from the NRC's regulations concerning special nuclear material (SNM) at the WCS facility without requiring a specific NRC license. WCS now requests to modify the 2009 Order so WCS can possess certain transuranic waste containing SNM greater than the amount specified in 10 CFR 150.11, move and temporarily store the waste in the WCS Federal Waste Disposal Facility (FWF) located in Andrews County, Texas.

After reviewing the WCS request, and other public and non-public information provided by WCS in documents and teleconference calls, the NRC decided to grant the WCS exemption request. As described in the Safety Evaluation Report for this request, the NRC has determined that the modified conditions in this 2014 Order will not endanger life or property or the common defense and security and is otherwise in the public interest to allow for movement and the temporary storage of the identified Department of Energy Los Alamos National Laboratory waste at WCS FWF. However, the Order regarding the exemption request reflects additional considerations that were not expressly raised by WCS.

The State of Texas will be notified.
