SUBJECT: ENERGY SURVEYS, INC., LICENSE AMENDMENT, CONTROL NO. 585222

Dear Mr. Shaver:

This refers to the undated letter from Mark A. Cvechko of your staff requesting an amendment to your NRC license. Enclosed with this letter is the amended license.

**Please note that current NRC policy requires that all correspondence related to a license be signed by a member of the licensee's senior management, and not the Radiation Safety Officer or a consultant. Your adherence to this policy in all your future correspondence with us will assist us in processing your correspondence in a timely manner.**

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at [www.nrc.gov](http://www.nrc.gov); select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).
