REFERENCE:

1. BWROG Letter, BWROG-14003 dated January 23, 2014, "BWR Material Dissolution Test Plan, BWROG-ECCS-WP-4-1 R4, for NRC Information and Commentary" (ML14065A063)

Dear Mr. Cusumano:

Enclosed for NRC Staff information as requested to support review of BWROG-14003 (Reference 1), are non-proprietary technical reports, "BWR Material Dissolution and Corrosion Evaluation" (Enclosure 1); and "Review of Boiling Water Reactor Material Dissolution in Post-LOCA Containment Solutions" (Enclosure 2). Please note, Attachments A and B of Enclosure 1 are not included in this package, as the data therein is from 2009 and was determined to be in need of revision. The BWROG is compiling Debris Source Term (DST) survey data through 1Q 2015 (similar in scope to Attachments A and B), and will provide it to NRC Staff at a mutually agreeable time.

Please ensure Enclosures 1 and 2 are distributed and reviewed to support agenda topics related to Reference 1 items during the public meeting to be held on December 4, 2014 (ML14317A454).
