Subject: please update me on your progress towards decommissioning your facilities in Hato Rey
Date: Tuesday, November 18, 2014 11:17:00 AM

International Cyclotron, Inc.
License No. 52-31352-01MD, Docket No.030-37882
License No. 52-31352-02, Docket No. 030-37957
Control No. 144277
EA-11-086

Dr. Kolodziej and Mr. Rhoe,

Please update me on the status of decommissioning activities of the facilities authorized by the above-listed NRC licenses. At the time of our most recent site visit on June 26, 2014, you had not yet begun decommissioning activities. I would appreciate any updated information about your decommissioning activities.

We note that you sent us a letter dated March 22, 2014, informing us that no activities were performed under these licenses for a period of 24 months, and you would begin decommissioning the facilities. Please be aware that, in accordance with the regulations in 10 CFR 30.36, you must complete your decommissioning within 24 months of the notification (by March 22, 2016). Alternately, if you believe the decommissioning activities are complex and will take longer, you must submit a decommissioning plan within 12 months of the notification (by March 22, 2015) and have that decommissioning plan approved by the NRC.

Please contact me if you have questions about this issue.

Thanks,
Betsy Ullrich
