Thanks George. The email just received from NRC accounting (attached) shows an estimate of \$401K through 4 of the 6 bi-weekly fee estimate periods. It seems like an estimate that extrapolated the quarterly fees to around \$600K would make sense, and in our position be more conservative than the number you provided (1781 hours X \$279/hr = \$497K).

I will give you a call. Additionally, a written invoice with the estimate would **really** help.

Jim

Jim,

I have been looking at our historical charges, at what I know needs to be done before January 3, 2015, in order to ensure the ACRS has all necessary documents, and your schedule for submitting Group B items for our review. Based on this I have made these estimates on the hours the staff will charge for pay periods 21 through 26. This correlates pretty much to October 2014- December 2014. (Actually it's late September through early January, but I'm hoping that's close enough to be useful to you)...

PP21 – 311 staff hours  
PP22 – 258 staff hours  
PP23 – 315 staff hours  
PP24 – 315 staff hours  
PP25 – 315 staff hours  
PP26 – 267 staff hours

Based on recent experience I do not anticipate any significant contractor support costs during this period.

I hope this is useful to you. I will be out of the office from tomorrow until next Monday. If you have any questions that cannot wait until next week. Please try to call this afternoon.

Thanks,

George
