Beltsville, MD 20705

**SUBJECT: NRC INSPECTION REPORT NOs. 03004530/2014012 AND 03004530/2014013,
UNITED STATES DEPARTMENT OF AGRICULTURE**

Dear Mr. Jensen:

This letter refers to your November 17, 2014, correspondence, in response to our October 21, 2014, letter. Thank you for informing us of the corrective and preventive actions documented in your letter. We also considered additional information you shared with us during a teleconference conducted on December 3, 2014, between you, Todd Jackson, and Dennis Lawyer of this office. During that call, you stated that the reason for the violations was that the personnel at the facilities did not understand the requirement for periodic training. You also stated that to avoid future violations, you will manually track individual radiation safety training attendance until it is automated into a computer tracking system. If our understanding of your actions is not correct, please inform us in writing. These actions will be examined during a future inspection of your licensed program.

Your cooperation with us is appreciated.

Sincerely,

/RA/

Blake Welling, Chief
Commercial, Industrial, R&D and Academic
Branch
Division of Nuclear Materials Safety
