Re: Amendment to Radioactive Materials License No. 21-08892-01

Dear Sir or Madame:

We respectfully request an amendment to the referenced radioactive materials license in order to include Misbah Gulam, MSc as an Authorized Medical Physicist. Mr. Gulam is currently listed as AMP in NRC license No. 21-04109-16. As supporting documentation, please find enclosed copy of a letter from Alan M. Jackson, Chariman of the Radiation Safety Committee of Henry Ford Hospital & Medical Centers.

Should you have any questions, please feel free to contact me at 248-471-8120.

Yours sincerely,

Lary Kestin, M.D.

Radiation Safety Officer for the High Dose-Rate Remote Afterloader Unit

Dear Sir or Madam:

This letter confirms that Misbah Gulam, MSc is an approved Authorized Medical Physicist under our broad scope license, NRC License No. 21-04109-16. Typically, authorized medical physicists are not listed on a broad scope license such as ours since we are able to internally approve these individuals. Mr. Gulam was approved by our Radiation Safety Committee as an authorized medical physicist on June 15, 2010. Among other things, Mr. Gulam is approved for brachytherapy, teletherapy, and high dose rate afterloader uses. He has remained active in the field of radiation oncology physics by supporting clinical medical physics at this institution for much more than 1000 hours a year since his approval here on June 15, 2010. The American Board of Radiology certified Mr. Gulam in Therapeutic Radiological Physics in May 2010.

If you should have any questions, please contact me at 313 916-2739.

Sincerely,

A handwritten signature in black ink that reads "Alan M. Jackson".

Alan M. Jackson, MS, CHP
Chair, Radiation Safety Committee

Filename: Misbah Gulam is and AMP 10-14
