Mr. Drew Persinko, Deputy Director  
Decommissioning and Uranium Recovery Licensing Directorate  
Division of Waste Management and Environmental Protection  
Office of Federal and State Materials and Environmental Management Programs  
Mailstop T8 F5  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Dear Mr. Persinko:

During the recent Q3 NRC update with Cameco Resources there was a discussion regarding the North Trend and Three Crow License Amendments. To clarify that discussion, Cameco Resources would like the NRC to prioritize their work so as to focus all resources on the Marsland License Amendment. If additional resources exist, those can be directed towards the remaining issues with the North Trend and Three Crow License Amendments. We understand that there is some remaining work on the Crow Butte re-license, and that work on existing permits takes precedence over permit applications.

Marsland continues to be our highest priority expansion site, with development planned when uranium market conditions improve.

Please let me know if you have any questions regarding the above request. I can be reached at (308) 665-2215.

Sincerely,

A handwritten signature in blue ink, appearing to read "Doug Pavlick".

Doug Pavlick  
General Manager U.S. Operations  
Cameco Resources
