As a consequence of our recent telephone conversation, I am requesting an amendment to the license regarding training of users of specifically licensed material –

Before using licensed material, authorized users will receive the training described in Appendix H in NUREG-1556, Vol. 18, 'Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Service Provider Licenses,' dated November 2000.

No ancillary personnel will have access to licensed sources while the sources are in my possession which is limited to about 1-2 hours per month. Sources are always under my constant observation. At the conclusion of licensed activities, sources are immediately transferred back to the University of Delaware License 07-01579-19.

For questions or more information, please me at (302) 275-3041 or wfendt@udel.edu.

Respectfully submitted,
