

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

December 11, 2014

Jelight Company, Inc.
ATTN: Inyu Kim
Radiation Safety Officer
Vice President of Operations
2 Mason
Irvine, California 92618

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION

Dear Mr. Kim:

This refers to your application dated November 12, 2014, for a U.S. Nuclear Regulatory Commission (NRC) exempt-distribution license (Agencywide Documents Access and Management System (ADAMS) No. ML14324A427). We do not have sufficient information to complete the review of your application.

The information you provided in your application is relevant for the purpose of meeting certain sections of the regulations in Title 10, Code of Federal Regulations, Part 32 (10 CFR 32), sections 32.14 and 32.15. However, you did not provide some of the information required by these regulations. Therefore, you should address these regulatory requirements by responding to the questions in the Enclosure to this letter. Please be aware that you must provide the information required by the regulations in a manner that allows the reader to see a specific, complete, and unambiguous response to each requirement.

We will continue our review upon receipt of this information. If we do not receive your reply within 30 calendar days from the date of this letter, we will consider your application as having been abandoned by you. This action would be without prejudice to the resubmission of another application with the required information. Note: Your letter stated that you have submitted a Radioactive Material License Application to the California Department of Public Health, Radiologic Health Branch, and it is being processed for licensing. Although we will continue our review, an exempt-distribution license will not be issued unless and until you have received the license from the State of California.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Any correspondence regarding this renewal application should reference control number 585289.

I. Kim
