Subject: new nuclear plant not a good idea

Hello,

I would like to comment on the proposed new nuclear plant near the Salem/Hope Creek site.

As a resident of New Castle County and our planet, I do not want to see more nuclear power plants, near me or anywhere.

I do not believe there is such a thing as “safe” nuclear power plant.

I would much rather see phasing out of existing nuclear plants and development of sustainable power sources such as solar (and wind, if wisely sited).

Thank you.

Resident, taxpayer, and voter, Kathryn Blair
