NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001**

December 24, 2014

Mr. Jon Greendeer, President
Ho-Chunk Nation
W9814 Airport Road
P.O. Box 667
Black River Falls, WI 54615

**SUBJECT: NOTICE OF AVAILABILITY OF THE DRAFT SUPPLEMENTAL
ENVIRONMENTAL IMPACT STATEMENT FOR LICENSE RENEWAL OF
BYRON NUCLEAR GENERATING STATION, UNITS 1 AND 2, FOR PUBLIC
COMMENT**

Dear President Greendeer:

The U.S. Nuclear Regulatory Commission (NRC) is conducting an environmental review of the effects of renewing the operating licenses for Byron Nuclear Generating Station, Units 1 and 2 (Byron). Byron is located in Ogle County, Illinois, approximately 145 miles northwest of Chicago, and 27 miles southwest of Rockford, Illinois and is operated by Exelon Generation Company, LLC (Exelon). As part of its review, the NRC has completed a draft Supplemental Environmental Impact Statement (SEIS) for the license renewal of Byron. This letter is to inform you and members of your tribe that the draft SEIS for the license renewal of Byron is available for public comment. The SEIS includes analyses of relevant environmental issues, including potential impacts to historic, archeological, and cultural properties from continued plant operation associated with license renewal.

As stated in our letter to your tribe dated in August 2013, the NRC is conducting Section 106 consultations in compliance with National Historic Preservation Act (NHPA) through the requirements of the National Environmental Policy Act (NEPA), as outlined in 36 CFR 800.8(c). In the context of NEPA, the NRC's preliminary determination is that any impact from continued power plant operations and maintenance activities during the license renewal term on historical and archaeological resources located in the area of potential effect would be small. Under the provisions of NHPA, the NRC determined that no historic properties would not be affected by this undertaking (the renewal of the Byron operating licenses). The justification for these conclusions is explained in Section 4.9.1 of the draft SEIS.

As discussed in Section 5.3 of the draft SEIS, the NRC's recommendation is that the environmental impacts of license renewal for Byron are not great enough to deny the option of license renewal for energy-planning decision-makers. This recommendation is based on (1) the analysis and findings in NUREG 1437, "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants, Revision 1;" (2) the environmental report submitted by

J. Greendeer

- 2 -

Exelon; (3) consultation with Federal, State, Tribal and local agencies; (4) the NRC's environmental review; and (5) consideration of public comments received during the scoping process.

Please find a copy of the draft SEIS with these conclusions enclosed. Pursuant to 36 CFR 800.8(c), we are requesting your comments on the draft SEIS and on our preliminary conclusions. Electronic comments on the draft SEIS may be submitted to the NRC by accessing www.regulations.gov and searching for Docket ID NRC-2013-0178. Written comments may be mailed to the NRC at:

Cindy Bladey, Chief
Rules, Announcements, and Directives Branch (RADB)
Office of Administration, Mail Stop: 3WFN-06-44M
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Please note that the public comment period for the draft SEIS ends on February 20, 2015.

The NRC staff will hold public meetings prior to the close of the public comment period to present an overview of the draft SEIS and to accept public comment on the document. Public meetings to discuss the findings of the draft SEIS will be held on February 3, 2015, at Byron Forest Preserve, 7993 North River Rd. Byron, IL 61010. The first session will convene at 2:00 p.m. and will continue until 4:00 p.m., as necessary. The second session will convene at 7:00 p.m. and will continue until 9:00 p. m., as necessary. A meeting notice will be published shortly providing more details about those public meetings. A separate Notice of Availability of the draft SEIS will be placed in the Federal Register through the U.S. Environmental Protection Agency. If you have any questions regarding this matter, please contact Russell Chazell, Environmental Scientist, at 301-415-5003 or by e-mail at Russell.Chazell@nrc.gov.

Sincerely,

/RA Jeffrey Rikhoff for/

**UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001**

December 24, 2014

Ms. Judith Bender, Chairperson
Sac and Fox Tribe of the Mississippi in Iowa/Meskwaki
349 Meskwaki Road
Tama, IA 52339

**SUBJECT: NOTICE OF AVAILABILITY OF THE DRAFT SUPPLEMENTAL
ENVIRONMENTAL IMPACT STATEMENT FOR LICENSE RENEWAL OF
BYRON NUCLEAR GENERATING STATION, UNITS 1 AND 2, FOR PUBLIC
COMMENT**

Dear Chairperson Bender:

The U.S. Nuclear Regulatory Commission (NRC) is conducting an environmental review of the effects of renewing the operating licenses for Byron Nuclear Generating Station, Units 1 and 2 (Byron). Byron is located in Ogle County, Illinois, approximately 145 miles northwest of Chicago, and 27 miles southwest of Rockford, Illinois and is operated by Exelon Generation Company, LLC (Exelon). As part of its review, the NRC has completed a draft Supplemental Environmental Impact Statement (SEIS) for the license renewal of Byron. This letter is to inform you and members of your tribe that the draft SEIS for the license renewal of Byron is available for public comment. The SEIS includes analyses of relevant environmental issues, including potential impacts to historic, archeological, and cultural properties from continued plant operation associated with license renewal.

As stated in our letter to your tribe dated in August 2013, the NRC is conducting Section 106 consultations in compliance with National Historic Preservation Act (NHPA) through the requirements of the National Environmental Policy Act (NEPA), as outlined in 36 CFR 800.8(c). In the context of NEPA, the NRC's preliminary determination is that any impact from continued power plant operations and maintenance activities during the license renewal term on historical and archaeological resources located in the area of potential effect would be small. Under the provisions of NHPA, the NRC determined that no historic properties would not be affected by this undertaking (the renewal of the Byron operating licenses). The justification for these conclusions is explained in Section 4.9.1 of the draft SEIS.

As discussed in Section 5.3 of the draft SEIS, the NRC's recommendation is that the environmental impacts of license renewal for Byron are not great enough to deny the option of license renewal for energy-planning decision-makers. This recommendation is based on (1) the analysis and findings in NUREG 1437, "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants, Revision 1;" (2) the environmental report submitted by

J. Bender

- 2 -

Exelon; (3) consultation with Federal, State, Tribal and local agencies; (4) the NRC's environmental review; and (5) consideration of public comments received during the scoping process.

Please find a copy of the draft SEIS with these conclusions enclosed. Pursuant to 36 CFR 800.8(c), we are requesting your comments on the draft SEIS and on our preliminary conclusions. Electronic comments on the draft SEIS may be submitted to the NRC by accessing www.regulations.gov and searching for Docket ID NRC-2013-0178. Written comments may be mailed to the NRC at:

Cindy Bladey, Chief
Rules, Announcements, and Directives Branch (RADB)
Office of Administration, Mail Stop: 3WFN-06-44M
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Please note that the public comment period for the draft SEIS ends on February 20, 2015.

The NRC staff will hold public meetings prior to the close of the public comment period to present an overview of the draft SEIS and to accept public comment on the document. Public meetings to discuss the findings of the draft SEIS will be held on February 3, 2015, at Byron Forest Preserve, 7993 North River Rd. Byron, IL 61010. The first session will convene at 2:00 p.m. and will continue until 4:00 p.m., as necessary. The second session will convene at 7:00 p.m. and will continue until 9:00 p. m., as necessary. A meeting notice will be published shortly providing more details about those public meetings. A separate Notice of Availability of the draft SEIS will be placed in the Federal Register through the U.S. Environmental Protection Agency. If you have any questions regarding this matter, please contact Russell Chazell, Environmental Scientist, at 301-415-5003 or by e-mail at Russell.Chazell@nrc.gov.

Sincerely,

**UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001**

December 24, 2014

Ms. Brigette Robidoux, Chairperson
Sac and Fox Nation of Missouri in Kansas and Nebraska
305 N. Main Street
Reserve KS, 66434

SUBJECT: NOTICE OF AVAILABILITY OF THE DRAFT SUPPLEMENTAL ENVIRONMENTAL IMPACT STATEMENT FOR LICENSE RENEWAL OF BYRON NUCLEAR GENERATING STATION, UNITS 1 AND 2, FOR PUBLIC COMMENT

Dear Chairperson Robidoux:

The U.S. Nuclear Regulatory Commission (NRC) is conducting an environmental review of the effects of renewing the operating licenses for Byron Nuclear Generating Station, Units 1 and 2 (Byron). Byron is located in Ogle County, Illinois, approximately 145 miles northwest of Chicago, and 27 miles southwest of Rockford, Illinois and is operated by Exelon Generation Company, LLC (Exelon). As part of its review, the NRC has completed a draft Supplemental Environmental Impact Statement (SEIS) for the license renewal of Byron. This letter is to inform you and members of your tribe that the draft SEIS for the license renewal of Byron is available for public comment. The SEIS includes analyses of relevant environmental issues, including potential impacts to historic, archeological, and cultural properties from continued plant operation associated with license renewal.

As stated in our letter to your tribe dated in August 2013, the NRC is conducting Section 106 consultations in compliance with National Historic Preservation Act (NHPA) through the requirements of the National Environmental Policy Act (NEPA), as outlined in 36 CFR 800.8(c). In the context of NEPA, the NRC's preliminary determination is that any impact from continued power plant operations and maintenance activities during the license renewal term on historical and archaeological resources located in the area of potential effect would be small. Under the provisions of NHPA, the NRC determined that no historic properties would not be affected by this undertaking (the renewal of the Byron operating licenses). The justification for these conclusions is explained in Section 4.9.1 of the draft SEIS.

As discussed in Section 5.3 of the draft SEIS, the NRC's recommendation is that the environmental impacts of license renewal for Byron are not great enough to deny the option of license renewal for energy-planning decision-makers. This recommendation is based on (1) the analysis and findings in NUREG 1437, "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants, Revision 1;" (2) the environmental report submitted by

B. Robindoux

- 2 -

Exelon; (3) consultation with Federal, State, Tribal and local agencies; (4) the NRC's environmental review; and (5) consideration of public comments received during the scoping process.

Please find a copy of the draft SEIS with these conclusions enclosed. Pursuant to 36 CFR 800.8(c), we are requesting your comments on the draft SEIS and on our preliminary conclusions. Electronic comments on the draft SEIS may be submitted to the NRC by accessing www.regulations.gov and searching for Docket ID NRC-2013-0178. Written comments may be mailed to the NRC at:

Cindy Bladey, Chief
Rules, Announcements, and Directives Branch (RADB)
Office of Administration, Mail Stop: 3WFN-06-44M
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Please note that the public comment period for the draft SEIS ends on February 20, 2015.

The NRC staff will hold public meetings prior to the close of the public comment period to present an overview of the draft SEIS and to accept public comment on the document. Public meetings to discuss the findings of the draft SEIS will be held on February 3, 2015, at Byron Forest Preserve, 7993 North River Rd. Byron, IL 61010. The first session will convene at 2:00 p.m. and will continue until 4:00 p.m., as necessary. The second session will convene at 7:00 p.m. and will continue until 9:00 p. m., as necessary. A meeting notice will be published shortly providing more details about those public meetings. A separate Notice of Availability of the draft SEIS will be placed in the Federal Register through the U.S. Environmental Protection Agency. If you have any questions regarding this matter, please contact Russell Chazell, Environmental Scientist, at 301-415-5003 or by e-mail at Russell.Chazell@nrc.gov.

NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001**

December 24, 2014

Mr. John Blackhawk, Chairman
Winnebago Tribe of Nebraska
100 Bluff Street
PO Box 687
Winnebago, NE 68071

SUBJECT: NOTICE OF AVAILABILITY OF THE DRAFT SUPPLEMENTAL ENVIRONMENTAL IMPACT STATEMENT FOR LICENSE RENEWAL OF BYRON NUCLEAR GENERATING STATION, UNITS 1 AND 2, FOR PUBLIC COMMENT

Dear Chairman Blackhawk:

The U.S. Nuclear Regulatory Commission (NRC) is conducting an environmental review of the effects of renewing the operating licenses for Byron Nuclear Generating Station, Units 1 and 2 (Byron). Byron is located in Ogle County, Illinois, approximately 145 miles northwest of Chicago, and 27 miles southwest of Rockford, Illinois and is operated by Exelon Generation Company, LLC (Exelon). As part of its review, the NRC has completed a draft Supplemental Environmental Impact Statement (SEIS) for the license renewal of Byron. This letter is to inform you and members of your tribe that the draft SEIS for the license renewal of Byron is available for public comment. The SEIS includes analyses of relevant environmental issues, including potential impacts to historic, archeological, and cultural properties from continued plant operation associated with license renewal.

As stated in our letter to your tribe dated in August 2013, the NRC is conducting Section 106 consultations in compliance with National Historic Preservation Act (NHPA) through the requirements of the National Environmental Policy Act (NEPA), as outlined in 36 CFR 800.8(c). In the context of NEPA, the NRC's preliminary determination is that any impact from continued power plant operations and maintenance activities during the license renewal term on historical and archaeological resources located in the area of potential effect would be small. Under the provisions of NHPA, the NRC determined that no historic properties would not be affected by this undertaking (the renewal of the Byron operating licenses). The justification for these conclusions is explained in Section 4.9.1 of the draft SEIS.

As discussed in Section 5.3 of the draft SEIS, the NRC's recommendation is that the environmental impacts of license renewal for Byron are not great enough to deny the option of license renewal for energy-planning decision-makers. This recommendation is based on (1) the analysis and findings in NUREG 1437, "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants, Revision 1;" (2) the environmental report submitted by

Exelon; (3) consultation with Federal, State, Tribal and local agencies; (4) the NRC's environmental review; and (5) consideration of public comments received during the scoping process.

Please find a copy of the draft SEIS with these conclusions enclosed. Pursuant to 36 CFR 800.8(c), we are requesting your comments on the draft SEIS and on our preliminary conclusions. Electronic comments on the draft SEIS may be submitted to the NRC by accessing www.regulations.gov and searching for Docket ID NRC-2013-0178. Written comments may be mailed to the NRC at:

Cindy Bladey, Chief
Rules, Announcements, and Directives Branch (RADB)
Office of Administration, Mail Stop: 3WFN-06-44M
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Please note that the public comment period for the draft SEIS ends on February 20, 2015.

The NRC staff will hold public meetings prior to the close of the public comment period to present an overview of the draft SEIS and to accept public comment on the document. Public meetings to discuss the findings of the draft SEIS will be held on February 3, 2015, at Byron Forest Preserve, 7993 North River Rd. Byron, IL 61010. The first session will convene at 2:00 p.m. and will continue until 4:00 p.m., as necessary. The second session will convene at 7:00 p.m. and will continue until 9:00 p.m., as necessary. A meeting notice will be published shortly providing more details about those public meetings. A separate Notice of Availability of the draft SEIS will be placed in the Federal Register through the U.S. Environmental Protection Agency. If you have any questions regarding this matter, please contact Russell Chazell, Environmental Scientist, at 301-415-5003 or by e-mail at Russell.Chazell@nrc.gov.

Sincerely,

/RA Jeffrey Rikhoff for/

David J. Wrona, Chief
Environmental Review and
Guidance Update Branch
Division of License Renewal
Office of Nuclear Reactor Regulation

Docket Nos. 50-454 and 50-455

Enclosure:
NUREG-1437, Generic Environmental Impact Statement
for License Renewal of Nuclear Plants, Supplement 54

Exelon; (3) consultation with Federal, State, Tribal and local agencies; (4) the NRC's environmental review; and (5) consideration of public comments received during the scoping process.

Please find a copy of the draft SEIS with these conclusions enclosed. Pursuant to 36 CFR 800.8(c), we are requesting your comments on the draft SEIS and on our preliminary conclusions. Electronic comments on the draft SEIS may be submitted to the NRC by accessing www.regulations.gov and searching for Docket ID NRC-2013-0178. Written comments may be mailed to the NRC at:

Cindy Bladey, Chief
 Rules, Announcements, and Directives Branch (RADB)
 Office of Administration, Mail Stop: 3WFN-06-44M
 U.S. Nuclear Regulatory Commission
 Washington, DC 20555-0001

Please note that the public comment period for the draft SEIS ends on February 20, 2015.
