Dear Mr. Ditta:

Subject: Inspection No. 030-13146/91-001

This refers to your letter dated May 3, 1991, in response to our letter dated April 30, 1991

Thank you for informing us of the corrective and preventive actions documented in your letter. These actions will be examined during a future inspection of your licensed program.

We acknowledge receipt of your amendment request dated February 12, 1991. However, the violation remains as cited due to the fact that a transfer of licensed radioactive material had taken place which resulted in your company possessing radioactive material without being specifically licensed to possess the radioactive material and associated detector cell.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:
