RE: Notice of Violation/91-001 dated 4/30/91  
License# 06-17669-01  
Docket# 030-13146

Immediately after my telephone discussion of February 11, 1991 with Judith A. Joustra, I mailed a letter (enclosed, dated February 12, 1991) to her requesting an amendment to our NRC licence to include both Perkin Elmer and Hewlett Packard electron capture detector cells.

I received a reply from Sandra Kimberley (enclosed, dated April 23, 1991) requesting a \$300.00 fee to amend our licence. The fee was mailed on May 2, 1991.

I took action immediately after talking to Judith Joustra on February 11, 1991, The Perkin Elmer gas chromatograph is not in use at this time, and will not be used until our amendment is final.

I hope the two enclosed letters will rescind our violation.

Please contact us if you have any questions or wish more information.
