**Subject:** NRC amendments

Hey April,

I'm working on the amendment requests for the PET production and radiopharmacy licenses to add Jeffrey Schultz, RPh and Nicholas Ackles as authorized users (NRC License Nos. 41-32720-03 & -04MD).

I'd like to get a little more info on Mr. Ackles' training and experience submitted in your letter dated 08/29/14. Please provide some expanded description of his T&E, specifically regarding:

- 1) Does he hold a bachelors degree (or equivalent training in sciences/engineering)? If so, please provide further info;
- 2) Clarify/expand on the PETNET training documentation submitted (Operations I Training, Rad Protection, etc.) and how it covers those items described in your approved training program as described in application dated September 25, 2009;
- 3) And how the other training documentation submitted (Eclipse Cyclotron courses) further supports the T&E description in pages 8-16 and 8-17 in NUREG-1556, Vol 21.

**PLEASE REPLY VIA EMAIL WITH THE RESPONSE ATTACHED AS A SIGNED PDF LETTER.**

If you have any questions, please let me know.

Thanks.  
Bryan
