Subject: Request for Additional Information RE: License Amendment, letter dated September 9, 2014 - MC584921
Date: Thursday, November 20, 2014 5:43:00 PM

License No.: 07-30533-01
Docket No.: 03035216
Mail Control No.: 584921

Dear Mr. Fendt:

It was a pleasure to speak with you today.

This is in reference to your letter dated September 9, 2014, requesting to amend Regulatory Commission License No. 07-30533-01.

In order to continue our review, we need the following information:

In Item 2 of your letter, please submit the statements described in "Response from Applicant" of Sections 8.7.2 and 8.7.3 of NUREG 1556, Vol. 18. "Consolidated Guidance About Materials Licenses, Program-Specific Guidance About Service Provider Licenses"
<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v18/>

If you have any questions, please contact me.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Very Respectfully,

Laurie A. Kauffman
