RE: **Amendment to NRC License No. 21-18585-01 McLaren Medical Center Bay Region**

Dear Sir/Madam:

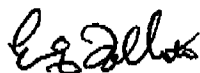

We would like to expedite an amendment to our current NRC license to reflect the following changes:

Please add **Matthew Buczek, M.S.** as an Authorized Medical Physicist (AMP) for Iridium-192 in a High Dose Rate Afterloader for calibrations, spot-checks, and training. He is currently listed as an AMP for this use on **NRC License No. 21-01549-02**. (McLaren Medical Center Bay Region License No. 21-18585-01 is currently in review for renewal under control No. 585377.)

The reason we are looking to expedite this review is because physicist Dennis Kehoe, M.S. is retiring in January 2015 and Matthew Buczek, M.S. will be taking over primary responsibilities for HDR physics at this facility.

If you have any questions regarding this matter, please contact our Medical Nuclear Physicist, Thomas M. Kumpuris, M.S., FACR of Medical Physics Consultants, Inc. 800-321-2207 and / or tkumpuris@mpcphysics.com.

Sincerely,

Ellen Talbott, Vice President Patient Care Services
