and Environmental Management Programs  
ATTN: Document Control Desk/GLTS  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Dear Sir or Madam:

This letter is in reference to NRC License 09-10672-03, reporting the removal of the source from our Liquid Scintillation Counter (LSC).

The LSC is housed at the Gulf Ecology Division of the US Environmental Protection Agency.

- A. The device is an A2500 Tri-Carb Liquid Scintillation Counter with serial number 103812.
- B. The source removal was performed by Edward Brown of Perkin Elmer and shipped to PerkinElmer, 68 Elm Street, Hopkinton, MA 01748.
- C. Source removal, packing, and shipping was performed on April 22<sup>nd</sup>, 2014

The delay in reporting of this source removal was due in part to initiating this as an amendment to our license. Information received from Dennis Lawyer as a result of this request has provided us with NRC: 10 CFR 31.5.

For further questions, please contact the RSO David Beddick at 850-934-9312. Thank you for your attention to this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "W.S. Fisher".

William S. Fisher, Ph.D.  
Acting Division Director  
U.S. EPA  
Gulf Ecology Division  
Gulf Breeze, FL 32561
