Lynchburg, VA 24506-0935

SUBJECT: NRC DETERMINATION REGARDING REQUEST FOR WITHHOLDING OF PROPRIETARY INFORMATION FROM PUBLIC DISCLOSURE REGARDING AREVA NP INC., U.S. EPR DESIGN CERTIFICATION FINAL SAFETY ANALYSIS REPORT CHANGES DUE TO LARGE-BREAK LOSS-OF-COOLANT-ACCIDENT REANALYSIS RESULTS

Dear Mr. Salas:

By your letter, dated December 19, 2014, and the associated affidavit executed by Nathan Hottle, Manager, AREVA Product Licensing, dated December 19, 2014, you submitted, by Enclosure 1 and Enclosure 2, proprietary and non-proprietary versions of its reanalysis of the large-break loss-of-coolant accident (LOCA), as committed in AREVA's letter of March 28, 2014. AREVA requested that this document be withheld from public disclosure pursuant to Title 10 of the *Code of Federal Regulations*, 10 CFR 2.390 Part 2, Section 390, "Public Inspections, Exemptions, Requests for Withholding." A publically available, non-proprietary version of this document was simultaneously submitted by AREVA and has been placed in the U.S. Nuclear Regulatory Commission (NRC) Public Document Room and added to the Agencywide Document Access and Management System's (ADAMS) Public Electronic Reading Room (ADAMS Accession No. ML14357A028).

The affidavit enclosed with your e-mail stated that the submitted information is considered proprietary and should be considered exempt from mandatory public disclosure for the following reasons:

- The information includes test data or analytical techniques concerning a process, methodology, or component, the application of which results in a competitive advantage for AREVA.
- The information reveals certain distinguishing aspects of a process, methodology, or component, the exclusive use of which provides a competitive advantage for AREVA in product optimization or marketability.

The NRC staff has reviewed your application and the material in accordance with the requirements of 10 CFR 2.390 and, on the basis of your statements, determined that the submitted information sought to be withheld contains proprietary information and will be withheld from public disclosure.

P. Salas

-2-

Therefore, the version of the submitted information marked as proprietary will be withheld from public disclosure pursuant to 10 CFR 2.390(b)(5) and Section 103(b) of the Atomic Energy Act of 1954, as amended. This withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the documents. If the need arises, we may send copies of this information to our consultants. We will, of course ensure that the consultants have signed the appropriate agreements for handling proprietary information.

If the basis for withholding this information from public inspection should change in the future, such that the information could then be made available for public inspection you should promptly notify the NRC staff. You also should understand that the NRC staff may have cause to review this determination in the future, for example, if the scope of a Freedom of Information Act request includes your information. In all review situations, if the NRC staff makes a determination adverse to the above, you will be notified in advance of any public disclosure.

If you have any questions regarding this matter, I may be reached at 301-415-5848 or at [bill.gleaves@nrc.gov](mailto:bill.gleaves@nrc.gov).

Sincerely,  
*/RA/*

William (Billy) Gleaves, Senior Project Manager  
Licensing Branch 1  
Division of New Reactor Licensing  
Office of New Reactors

Docket No.: 52-020
