Pamela J. Henderson, Deputy Director
Division of Materials Safety and State Agreements
Office of Federal and State Materials and
Environmental Management Programs
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Dear Ms. Henderson:

Subject: Request for Nuclear Regulatory Commission (NRC) Compatibility Review of Iowa Administrative Code (IAC) 641-45(136C)

The Iowa State Regulation Status sheet shows RATS ID 1998-4 "Licenses for Industrial Radiography and Radiation Safety Requirements for Industrial Radiographic Operations" as having a proposed change to a final rule. This proposed change was sent to the NRC in December of 1999. These rules were adopted and filed with an effective date of May 10, 2000. The final rules apparently were not sent to the NRC for review. Due to the length of time since the adoption of these rules and additional changes that have occurred to IAC 641-45(136C), Iowa is requesting that the NRC conduct a compatibility review between 10 CFR Part 34 and IAC 641-45(136C) in order to close out this RATS ID. A crosswalk between the two is provided along with IAC chapters 38, 39 and 45.

If you have any questions, please feel free to contact me or Randal S. Dahlin of my staff at 515-281-0419 or randal.dahlin@idph.iowa.gov.

Sincerely,

Angela E. Leek, Chief
Bureau of Radiological Health
(515) 281-3478
angela.leek@idph.iowa.gov

AEL/rd
