**Subject:** FW: Decommissioning plan comments now Docket No. NRC-2014-0223

Carol:  
It does not come as a surprise that so many able voices have lent contributions to assist you all of the NRC in your difficult decisions. Many San Diego community's contributions are proof that democracies succeed because many minds and many voices are more powerful than mere handful. We are most fortunate to include in those Donna's unflagging and superior research [www.sanonofresafety.org](http://www.sanonofresafety.org).

It's a pleasure to know that NRC is listening to others such that further errors be avoided. Thank you very much.  
Bart
