**Subject:** Amendment Request for US NRC License No. 08-01728-01  
**Date:** Wednesday, December 31, 2014 11:02:00 AM

---

Licensee Name: Providence Hospital  
License No.: 08-01728-01  
Docket No.: 030-01316  
Mail Control No.: 585305

Dear Ms. Peel,

Please acknowledge receipt of this communication. As per our phone conversation yesterday, additional information is needed to process the amendment for Providence Hospital.

Abbas Motazedi, MD has not served as a Radiation Safety Officer (RSO) on a license with 35.300 activities. As a result, additional documentation is needed to support your request. Submit a completed NRC Form 313A (RSO) which can be found at the following link: [http://www.nrc.gov/reading-rm/doc-collections/forms/nrc313a\(rso\).pdf](http://www.nrc.gov/reading-rm/doc-collections/forms/nrc313a(rso).pdf). Please refer to section 8.11, "Radiation Safety Officer" of NUREG 1556 Vol. 9 Rev. 2 for assistance. As I discussed on the phone December 30, 2014, with Dr. Motazedi, he can qualify as RSO through the Board Certification pathway by providing the following information:

- A copy of his board certification,
- Use Table 3.c. to describe training in radiation safety, regulatory issues, and emergency procedures for all types of medical use (i.e. 35.100, 35.200 and 35.300) on the license,
- And complete Part II Preceptor Attestation.
- Training and experience must have been obtained within seven years preceding the date of this request or related continuing education must be submitted. Reference 10 CFR 35.59.

Once we receive the additional information requested, we should be able to finalize the processing of your amendment request. You may respond to my attention in writing by letter or fax (610-337-5269), referencing mail control 585305. If we do not receive a reply from you within 30 calendar days from the date of this e-mail, we will assume that you do not wish to pursue your amendment.

Regards,

*Robin L. Elliott*
