

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

January 13, 2015

Jack Ramsey, PE
Sr. Radiation Safety Officer
Metso Automation USA, Inc.
2425 Commerce Ave, Suite 100
Duluth GA, 30096

SUBJECT: TRANSFER OF SEALED SOURCE AND DEVICE REGISTRATION FROM
GEORGIA TO THE U.S. NUCLEAR REGULATORY COMMISSION,
CERTIFICATE NO. NR-0596-D-805-G

Dear Mr. Ramsey:

This is a follow-up to the letter which Ms. Margie A Kotzalas, U.S. Nuclear Regulatory Commission (NRC), sent to you. This letter, dated August 20, 2013, informed you that the NRC would be issuing new Sealed Source and Device (SS&D) registration certificates to replace the ones which had been issued previously by the Georgia Environmental Protection Division (GAEPD) because the authority to issue Sealed Source and Device registrations has been transferred from the GAEPD to the NRC.

In reference to the letter, dated June 16, 2014, to transfer the registration certificate GA-0596-D-105-G to inactive status. This certificate has been transferred to inactive status as requested. A copy of the inactivated registration certificate NR-0596-D-805-G is enclosed. Furthermore, please note that we are also working on issuing new registration certificates to replace your other GAEPD certificates, and we will transmit these new certificates accordingly once they are complete.

Please read over the enclosed registration certificate in its entirety and notify us immediately of any errors or omissions.

If you have any questions, please contact me at Tomas.Herrera@nrc.gov or at (301) 415-7138.

Sincerely,

/RA/

Tomas Herrera, Team Leader
Materials Safety Licensing Branch
Division of Material Safety, States, Tribal,
and Rulemaking Programs
Office of Nuclear Material Safety
and Safeguards
