Subject: Transfer of GA-0596-D-106-G
Date: Friday, January 09, 2015 4:31:00 PM

Good Afternoon Mr. Ramsey,

Per your later dated June 16, 2004 you had requested the inactivation of GA-0596-D-106-G. As I was looking into this certificate, I found that this certificate was superseded by a registration certificate under OH-1090-D-104-B for Automation and Control Technology located in Dublin, OH.

Based on this information there is no certificate to inactivate, since GA-0596-D-106-G has been superseded and will not be transferred to an NRC certificate.

Please let me know if you have any questions

Thank you,
Tomas Herrera
