RE: Facility ID No. 073-00004, US Ecology Idaho, Inc., Grand View  
Final Permit Letter

Dear Mr. Geis:

The Department of Environmental Quality (DEQ) is issuing Permit to Construct (PTC) No. P-2008.0162 Project 61436 to US Ecology located near Grand View for changes in air pollution control device operating requirements. This PTC is issued in accordance with IDAPA 58.01.01.200 through 228 (Rules for the Control of Air Pollution in Idaho) and is based on the certified information provided in your PTC application received October 8, 2014.

This permit is effective immediately and replaces Permit to Construct No. P-2008.0162, issued on June 9, 2006 and modified/revised on January 27, 2009. This permit does not release US Ecology from compliance with all other applicable federal, state, or local laws, regulations, permits, or ordinances.

In order to fully understand the compliance requirements of this permit, DEQ highly recommends that you schedule a meeting with Tom Krinke, Compliance Officer, at (208) 373-0419 to review and discuss the terms and conditions of this permit. Should you choose to schedule this meeting, DEQ recommends that the following representatives attend the meeting: your facility's plant manager, responsible official, environmental contact, and any other staff responsible for day-to-day compliance with permit conditions.

Pursuant to IDAPA 58.01.23, you, as well as any other entity, may have the right to appeal this final agency action within 35 days of the date of this decision. However, prior to filing a petition for a contested case, I encourage you to contact Dan Pitman at (208) 373-0502 or [daniel.pitman@deq.idaho.gov](mailto:daniel.pitman@deq.idaho.gov) to address any questions or concerns you may have with the enclosed permit.

Sincerely,

A handwritten signature in black ink that reads "Mike Simon".
