Docket No.: NRC-0000-1402-1626

Dear Mr. Lawyer:

The Connecticut Department of Energy and Environmental Protection (DEEP) is requesting the following amendments to our US NRC License, 06-27895-02.

I, Jeffery Semancik, have replaced Dr. Edward Wilds Jr., as Director of the DEEP Division of Radiation. In addition to being the licensee's management representative, I am requesting to be added as an authorized user of the licensed material. I am well qualified to be an authorized user on US NRC License 06-27895-02. I have over twenty eight years of experience working with radioactive material in the United States Navy and commercial nuclear power industry. I have a Bachelor of Science Degree in Physics from the US Naval Academy and a Master's Degree in Engineering. I held a Senior Reactor Operators license and several responsible management positions including Plant Manager at the Millstone Nuclear Power Station.

Please remove Dr. Wilds from our license. He is no longer employed by the State of Connecticut, and, as such, is no longer an authorized user.

Please feel free to contact me at (860) 424-4190 or the Radiation Safety Officer, Michael E. Firsick, if you have any questions or need additional information. Mr. Firsick can be reached at (860) 424-3517 or michael.firsick@ct.gov.

Sincerely,

Jeffery Semancik
Director
Connecticut Department of Energy and Environmental Protection
