**SUBJECT: MARSHALL MILLER AND ASSOCIATES, INC., CONSENT TO TRANSFER  
LICENSE, CONTROL NO. 585375**

Dear Mr. Keim:

By letter dated November 13, 2014, Marshall Miller and Associates, Inc., notified the U.S. Nuclear Regulatory Commission (NRC) that it was being reorganized with its parent company, Cardno, Inc. The letter requested for a consent to the direct license transfer of NRC Materials License No. 45-17195-01. A letter dated December 3, 2014, was sent with additional information. Based on the information the NRC staff understands that as a result of the reorganization the license will be transferred to Cardno, Inc. The NRC staff further understands that this transfer will not result in any change to the licensee's licensed material, persons using the licensed material, location of the use of licensed material, or persons responsible for the licensee's radiation safety program. It will result in the licensee's name to be changed to Cardno, Inc.

Based on the above understandings, and as more fully detailed in the enclosed NRC staff's Safety Evaluation Report, which documents the NRC staff's safety review of the request, the NRC consents to the proposed transfer. Please note that you will need to notify the NRC promptly, in writing, after the transaction has been finalized and include a signed documentation of the completion of the action. With this information, we can issue an administrative amendment to your NRC license to reflect the transaction. Please notify the NRC, in writing, if this planned sale has not been consummated within 30 days of the date of this letter or this consent may be deemed null and void. Please contact Dennis Lawyer at 610-337-5366, or by e-mail [dennis.lawyer@nrc.gov](mailto:dennis.lawyer@nrc.gov) if you have any questions regarding this letter.

Based on the above understandings, the NRC consents to the proposed direct transfer of control of NRC Materials License No. 45-17195-01. Future changes in the licensee's name, licensed use, licensed materials, licensed location, or persons responsible for licensed material require submission of a request to amend the license. NRC approval must be received prior to implementation of the proposed change.

In accordance with 10 CFR 2.390 of the NRC's "Agency Rules of Practice and Procedure," a

K. Keim

copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation in this matter.

Sincerely,
