Prairie Island Nuclear Generating Plant, Unit 2
Docket 50-306
Renewed License No. DPR-60

Corrected Reference to 10 CFR 50.46 30 Day NRC Submittal

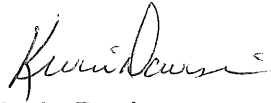

Reference: 1. Letter from Northern States Power Company, a Minnesota corporation (NSPM), doing business as Xcel Energy to NRC, "Supplemental Information Associated with Technical Evaluation to Support Loss-of-Coolant Accident (LOCA) 10 CFR 50.46 30 Day NRC Submittal", dated June 23, 2014. (ADAMS Accession ML14174B196)

Pursuant to 10 CFR 50.46, Northern States Power Company, a Minnesota corporation, doing business as Xcel Energy (hereafter "NSPM") submits a corrected 30 day report for Prairie Island Nuclear Generating Plant (PINGP) Unit 2. A report submitted by letter dated June 23, 2014 (Reference 1) contained an attachment with an incorrect reference. The Unit 1 Large-Break Loss-of-Coolant Accident (LBLOCA) rack-up sheet erroneously referenced WCAP-17783-P, "Best-Estimate Analysis of the Large-Break Loss-of-Coolant Accident for Prairie Island Units 1 and 2 with Replacement Steam Generators Using ASTRUM Methodology," dated June 2013, instead of WCAP-16890-P, Revision 1, "Best-Estimate Analysis of the Large-Break Loss-of-Coolant Accident for the Prairie Island Nuclear Plant Unit 1 Using ASTRUM Methodology," dated June 2008. This letter amends the incorrect reference.

Enclosure 1 contains the Westinghouse LOCA Peak Clad Temperature Summary for ASTRUM Best Estimate Large Break for Unit 1.

Summary of Commitments

This letter contains no new commitments and no revisions to existing commitments.

Kevin Davison
Site Vice President, Prairie Island Nuclear Generating Plant
Northern States Power Company - Minnesota
