RE: NRC License 16-32540-01

Attached are the documents for the sealed source inventory and close out survey along with a copy of the diagram for our facility at 213 Hunter Station Road, Sellersburg, IN. The following radioactive nuclides were used at this facility: Tc04- and TL-201.

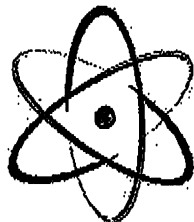

A leak test and sealed source inventory was performed on 12/15/2014. There is no history of any leaking sealed sources. On 12/17/14, these sources were transferred from this facility by Cardinal Health (KY License 202-206-32) to our office located in Bardstown, KY (KY RAM 202-383-24). Please mail any correspondence regarding this closure to Nancy Dumeyer, Practice Administrator, KentuckyOne Health, 3920 Dutchmans Lane, Suite 316, Louisville, KY 40207. Please call me at 502-331-9088 if you have any questions. Thank you.
