Good morning Steve,

We at Pennsylvania DEP have asked a few times over the last year or so through Donna Janda in the NRC office in KOP for an interpretation on regulatory jurisdiction at the Willow Grove former naval air station. She indicated that NRC was working on guidance to help make these decisions. We received the attached FSME documents, but we still aren't sure. They are in the process of getting ready to characterize and then possibly remediate. They are asking for regulatory input from us even though their documents references NRC at points. We just want to get the site under the right oversight, and I am hoping you can help. Also attached is the is the radiological historical assessment they asked us to review quite a while ago.

Any help you can provide in interpreting the jurisdiction is greatly appreciated. We don't want the contractor getting too far ahead, and we really don't want to be telling them things if NRC should be.

Thanks,  
Bryan
