Subject: RAI, Generally Licensed Device

### Discussion:

I had called Mr. Kembrell about the new device they requested to be added to the license. I believed that it could have been distributed by the general license program. I asked him to look at the labeling. He called me back and stated that it was labeled as generally licensed. I did discuss that he could make it specifically licensed and discussed the difference. He said that he didn't see a need for it to be specifically licensed and agreed that the requested action was no longer requested.

Action Required: Void the amendment based on the licensee's request.
