Department of Energy/Electric Power Research Institute (DOE/EPRI) Cable Meetings

On January 12-13, 2015, staff participated in DOE/EPRI electrical cable research meetings supporting subsequent license renewal. The purpose was to discuss technical issues and ongoing research on electrical cables and condition monitoring test methods. Additional discussions centered on obtaining naturally-aged cables from decommissioned plants (Zion, Crystal River, etc.) for use in electrical cable research as well as NRC's update on electrical cable aging management programs for subsequent license renewal. On January 14-16, 2015, staff participated in the Electric Power Research Institute Cable User's Group meeting, which included discussions on medium voltage cable failures, lessons learned in qualification of cables, fiber optic cable qualification, low voltage insulation susceptibility to wet environments, condition monitoring test methods, and cable operating experience.
