Dear Ms. Newman,

This is in reference to the revised decommissioning funding plan in the letter dated January 12, 2015, as part of the request to renew Nuclear Regulatory Commission (NRC) License No. 19-00296-21, Docket No. 03037773 and for financial assurance associated with NRC License No. 19-00296-10, Docket 03001786 and NRC License No. 19-00296-17, Docket No. 03008478. In order to continue our review, we need the following additional information:

1. Table A.3.6 was missing from the decommissioning funding plan in the letter dated January 12, 2015. Please submit Table A.3.6.
2. The labor rate submitted in Table A.3.12 is the same labor rate that was submitted in the decommissioning funding plan calculation performed on November 24, 2013. Although inflation rate is low, and labor rates have been stagnate a few years ago, generally labor rates are currently rising on an annual rate. Please review the labor rate and make corrections or confirm that the labor rate has not increased.
