Mr. Burkhart,

SCE&G received NRC Bulletin 2012-01, "Design Vulnerability in Electric Power System" response letter (ML14246A167), dated November 5, 2014, with a requested response within thirty (30) days of receipt. This requested response date was subsequently extended via teleconferences between NRC and SCE&G to January 23, 2015. Per telecon with the NRC on January 23, 2015, SCE&G received approval for an additional extension to January 30, 2015 to allow the completion of this response. If you have any questions, please contact me at 803-941-9858.

Thanks  
April Rice
