

This page provides an abstract, justification, and target dates for a potential rule that the U.S. Nuclear Regulatory Commission (NRC) has prioritized in its Common Prioritization of Rulemaking listing.

Please visit the [Rulemaking Priorities](#) page on the NRC's public Web site for additional information about this page and to view the entire Common Prioritization of Rulemaking listing.

<b>Amendments to List of Approved Spent Fuel Storage Cask - Placeholder</b>				
<b>Abstract</b>				
These rulemakings approve use of new cask designs for dry storage of spent fuel. Casks that have been approved for use under a general license are added to list of approved designs in Part 72.				
<b>Justification</b>				
This rule scored 36 points (15,6,10,5) because of the following reasons:				
A. Moderate contributor towards one or more goals and implements multiple strategies in one or more goals (safety strategies 2 and 3).				
B. Moderate contributor towards one strategy (regulatory effectiveness strategies 2).				
C. Significant contributor one or more considerations or Commission has provided specific direction and priority/schedule on the rulemaking. The staff sent SECY-01-0266, dated December 18, 2001, identifying the streamlined process that will be used for CoC rulemakings, about five per year.				
D. Significant contributor toward one or more considerations. There is significant interest by CoC holders and licensees in timely approval of CoC rulemakings, with NMSS/SFSTM requiring public availability of the CoC rulemaking schedule at <a href="http://www.nrc.gov/waste/spent-fuel-storage/sfs-schedule-rulemaking.html">http://www.nrc.gov/waste/spent-fuel-storage/sfs-schedule-rulemaking.html</a> .
