SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE

Dear Dr. Green:

You provided an NRC Form 314, Certificate of Disposition of Materials dated November 13, 2014, to the U.S. Nuclear Regulatory Commission requesting that NRC radioactive material license 24-32429-01 issued to Shawnee Mission Clinical Cardiovascular Associates be terminated. Based upon our review of the close-out survey submitted with the Certificate of Disposition of Materials, we have concluded that all licensable radioactive material has been removed from the facility located at 206 NW Mock Avenue, Suite 200, Blue Springs, MO, and that this facility may be released for unrestricted use.

NRC license number 24-32429-01 is hereby terminated.

In accordance with 10 Code of Federal Regulations 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.
