SUBJECT: TRANSFER OF SEALED SOURCE AND DEVICE REGISTRATION FROM
GEORGIA TO THE U.S. NUCLEAR REGULATORY COMMISSION,
CERTIFICATE NO. NR-0716-D-806-S

Dear Mr. Ramsey:

This is a follow-up to the letter which Ms. Margie A Kotzalas, U.S. Nuclear Regulatory Commission (NRC), sent to you. This letter, dated August 20, 2013, informed you that the NRC would be issuing new Sealed Source and Device (SS&D) registration certificates to replace the ones which had been issued previously by the Georgia Environmental Protection Division (GAEPD) because the authority to issue Sealed Source and Device registrations has been transferred from the GAEPD to the NRC.

In reference to the letter dated September 28, 2013, requesting transfer of the registration certificate GA-0716-D-107-S to an inactive status, the registration certificate has been transferred to inactive status as requested. A copy of the inactivated registration certificate NR-0716-D-806-S is enclosed. Furthermore, please note that we are also working on issuing new registration certificates to replace your other GAEPD certificates, and we will transmit these new certificates accordingly once they are complete.

Please read over the enclosed registration certificate in its entirety and notify us immediately of any errors or omissions.

You are obligated to notify us promptly in writing should you decide to no longer manufacture, distribute, or offer service support for the product.

If you have any questions, please contact me at Lymari.Sepulveda@nrc.gov or at (301) 415-5619.

Sincerely,

/RA/
