ARLINGTON, TX 76011-4511

February 9, 2015

Mr. Brian Hansen, President
Gordon Paving Company, Inc.
941 Tanglewood Court
Twin Falls, Idaho 83301

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 11-29418-01

You have informed the U.S. Nuclear Regulatory Commission (NRC) that Gordon Paving Company, Inc., wished to terminate NRC radioactive materials license number 11-29418-01. The NRC Form 314 dated October 27, 2014 stated that all radioactive material had been transferred to an NRC licensed entity.

The supporting documentation to the NRC Form 314, and an independent verification by an NRC inspector, determined that there was no evidence of leakage of radioactive material from the sealed sources in your possession. Based on the documentation submitted and a review of your historical file, the staff concluded that all licensable radioactive material has been removed from the facility and the facility located at 1330 Addison Avenue West, Twin Falls, Idaho, is suitable for unrestricted use in accordance with 10 CFR 20.1402, "Radiological Criteria for Unrestricted Use." Based on these conclusions, no further remediation or actions with respect to NRC regulated material is required.

Please find enclosed amendment number 02 to license number 11-29418-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii). You can contact me at 817-200-1189 if you have questions about this license.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/

Roberto J. Torres, M.S., Senior Health Physicist
Nuclear Materials Safety Branch B
