Attn. Ms. Sara Forster

Dear Ms. Forster:

This letter is in response to your telephone message from Friday, February 6 concerning my request to expedite my application amendment. I am looking at installing a new fixed gauge during our plant outage scheduled for March 30 through April 19. I need the amended license before I can order the new gauge because the new gauge contains 50mCi of c-60 instead of the 38 I am currently licensed for.

I appreciate you taking time to look into this for me and if you have any questions please feel free to contact me.
