In the Matter of  
PACIFIC GAS AND ELECTRIC COMPANY  
(Diablo Canyon Power Plant, Units 1 and 2)  
Docket Nos. 50-275-LR and 50-323-LR

**RE: Status Report**

Dear Administrative Judges:

As directed by the Licensing Board Order of June 7, 2011, Pacific Gas and Electric Company (PG&E) hereby provides its monthly report specifying its current best estimate of the dates on which it expects to complete milestones related to the coastal zone consistency certification associated with NRC license renewal for DCPP. PG&E issued the final seismic report in September 2014. In response to an NRC request, dated July 3, 2014 (ADAMS Accession No. ML14167A492) PG&E submitted updates to the technical and environmental reports supporting DCPP license renewal in December 2014, with the exception of additional updates currently scheduled to be provided in February 2015. PG&E will inform the NRC of the timing of any updated coastal consistency review filings when a schedule is established. By PG&E letter dated December 18, 2014 (DCL-14-103), PG&E indicated to the NRC that it is in the process of addressing comments on the original Coastal Consistency Certification submitted to the California Coastal Commission in 2009.

PG&E will continue to provide specific dates in the monthly reports to the extent practicable, recognizing that these dates may be modified as more accurate information becomes available.

Executed in accord with 10 CFR 2.304(d),
